

Rotowash Cleaning Instructions

PLEASE NOTE:

It is **very important** to pay close attention to starting this unit properly to avoid breakage and downtime.

Follow **ARROW** instructions on machine and **DIAL** on the side of the machine. **Minimum** setting for **Carpet** and **Maximum** setting for **Hard Floors**.

DAILY MAINTENANCE:

It is imperative to spend 10 minutes at the end of the day to clean this machine. If not, and the machine develops a build-up of hardened dirt and debris, you can expect failure or expensive repairs.

- ① Wipe down unit and wheels. Pay particular attention to keeping the undercarriage and brushes clean, clear of heavy lint and other dirt debris.
- ② Flush tanks with clean fresh water to eliminate soap and hard-water scale build-up, causing plugged water jets.
